PROFESSIONAL EXPERIENCE

Lead Designer 2 · GeekyAnts	Jul 2022 – Present
Lead end-to-end product design across SaaS, enterprise and client products — covering UX strategy, research, information architecture, user flows, interaction design, visual design, prototyping and design systems.	
Remain hands-on throughout the product lifecycle, translating business requirements and user needs into intuitive, scalable web and mobile experiences.	

Solve complex UX problems across multiple personas, workflows and data-heavy experiences, balancing user needs, business goals and technical feasibility.

Design scalable systems and reusable components that improve consistency and support efficient delivery across complex products.

Lead design across 15+ projects, typically collaborating with teams of 4–5 designers while managing 7 direct reports.

Partner with PMs, engineers, clients and senior stakeholders to shape product direction, resolve constraints and communicate design rationale.

Own design planning, estimation, timelines and resource allocation, including pre-sales, while directly representing design with clients and leadership.

Mentor designers through regular reviews, examples and principle-based feedback; guided 30+ designers across projects.

Participated in hiring through screening, assignments and evaluations; contributed to hiring 20+ designers.

Senior UI/UX Designer · GeekyAnts

Jul 2020 – Jul 2022

Designed SaaS and enterprise products across healthcare, recruitment, fintech, gaming and sports — from user flows and wireframes through high-fidelity UI and prototypes.

Worked on a browser-based no-code platform for building React Native and React applications, focusing on usability, scalability and design consistency.

Built and evolved design-system components and responsive experiences while collaborating closely with developers and product stakeholders.

Presented UX approaches and product improvements to stakeholders using research, competitive references and design rationale to drive alignment.

UI/UX Designer · GeekyAnts

Apr 2017 – Jul 2020

Designed responsive web and mobile experiences across multiple products, translating requirements into user flows, wireframes, prototypes and high-fidelity interfaces.

Conducted user-focused exploration and usability thinking to improve interaction patterns, navigation and overall experience quality.

Collaborated with senior designers and developers to maintain design consistency and support accurate implementation.

UI/UX Designer · Phoenix LifeCare Systems

Jan 2016 – Mar 2017

Gathered user requirements and designed healthcare software experiences for labs, clinics, medical professionals and hospitals.

Created wireframes, prototypes and responsive UI while collaborating with cross-functional teams to improve usability.

Graphic & Web Designer · WebTechiez

Mar 2015 – Jan 2016

Designed websites, landing pages, branding and digital assets with a focus on responsive layouts and visual quality.

Collaborated with clients and developers across multiple projects and delivered design work within timelines.
